1.) Non-Toxic Products = Cleaner Air in Your Home. Fact: According to the EPA, the typical American home has chemical contamination levels 2 to 5 times greater than outdoor air. As a work-from-home mom and as someone who lives in a climate with real winter (i.e. the windows are closed for almost half the year), I take that statistic to heart.

4 Good Reasons To Buy Natural, Non-Toxic Products

Volatile organic compounds (VOCs) are organic chemicals that have a high vapour pressure at ordinary room temperature. Their high vapor pressure results from a low boiling point, which causes large numbers of molecules to evaporate or sublime from the liquid or solid form of the compound and enter the surrounding air, a trait known as volatility. For example, formaldehyde, which evaporates ...
