A320/321 Flight Crew Training Manual - 737NG
When something works brilliantly, it makes sense to use it all the time. Like all the members of the aircraft family that introduced Airbus' revolutionary fly-by-wire control system, the A318 benefits from cockpit commonality, helping to reduce the cost of training, maintenance and operation of the aircraft.

AIRCRAFT SYSTEMS
The Airbus A318 is the smallest airliner in the Airbus A320 family.The A318 carries 107 to 132 passengers and has a maximum range of 5,700 km (3,100 nmi). Final assembly of the aircraft took place in Hamburg, Germany.It is intended primarily for short-range service, although British Airways uses the aircraft on a London City Airport to New York-JFK Airport transatlantic route (albeit with a ...

Airbus A318 - Wikipedia
The Airbus A318 is the smallest member of the Airbus A320 family. The A318 carries up to 132 passengers and has a maximum range of 5,700 km (3,100 nmi). The aircraft entered service in July 2003 with Frontier Airlines, and shares a common type rating with all other Airbus A320 family variants, allowing existing A320 family pilots to fly the ...

Airbus A319/320/321 Notes
This week, British Airways announced that it would be retiring its sole Airbus A318. To many, that meant one thing: The airline would be suspending the widely loved BA1 flight. The all-business-class configuration on the A318 flew between London City (LCY) and New York (JFK) with a refuelling stop in Shannon, Ireland (SNN) along the way.

In the 2D panel different panel views are available either through shortcuts or through the FSX main menu. Shortcuts Shift + 2: VFR Panel View (Default View)

Operations Manual - BlackBox Simulation
The Airbus A318 featured amenities in just 32 business class seats. But the fuel range was not one of its pros in a nonstop flight from London to New York. Consequently, the airline decided to make a stopover from LCY to Irish Shannon Airport (SNN). Then, it flew from SNN to New York JFK Airport (JFK).

British Airways To End Airbus A318 Service | Airways Magazine
The airline had a specially configured Airbus A318 with just 32 business class seats: The flight operated out of London City Airport, rather than out of London Heathrow On the westbound sector the flight stopped in Shannon, as that was necessary to refuel (London City has a short runway), though passengers also cleared US immigration there ...
