Digital satellite communications / 200, Solutions manual ...

Satellite television, like other communications relayed by satellite, starts with a transmitting antenna located at an uplink facility. Uplink satellite dishes are very large, as much as 9 to 12 meters (30 to 40 feet) in diameter. The increased diameter results in more accurate aiming and increased signal strength at the satellite.

L3Harris tactical satellite communication (SATCOM) solutions provide man-transportable, vehicle-mounted and handheld multiband satellite communication capabilities for users in harsh, isolated environments, delivering high-bandwidth data anywhere on Earth via virtually all military and commercial wideband satellite constellations.

Tactical SATCOM Radios | L3Harris

9. DIGITAL SATELLITE COMMUNICATION SYSTEM 9.1 Introduction The first commercial communication satellite, INTELSAT I (known as ‘Early Bird’), was launched in April 1965. Since then, satellite communications have become a major means for international as well as domestic communications over long or moderate distances.

9. DIGITAL SATELLITE COMMUNICATION SYSTEM 9.1 Introduction

First published in 1986, Satellite Communications is unique in focusing on the principles behind satellite communication systems rather than the encyclopedic range of specific systems. Continued in the completely updated Second Edition, this approach allows students to fully master the concepts that govern how a satellite communication system transfers information.
