Most R&D stage-gate processes begin with a product description and business model. Design-led companies begin with a prototype that answers a customer need, backed up with a business case. Design is inherently iterative, and companies that emphasize prototyping early rather than perfectly move more quickly toward products that customers love.

Ten principles of design thinking that deliver business ...

a business that takes resources from nature for direct consumption or for use in developing other products. Farmers people who cultivate land and use other natural resources to grow crops and raise livestock for consumption.
