Welcome to Spin to Knit a Sweater! Taught by Rachel Smith, the founder of the Wool n' Spinning blog and podcast, this class is designed to walk you through the process of creating your first garment from your handspun yarn. In this course, you'll learn how to select the kind of fibre that will give you the garment you desire, how to sample your handspun yarn, how to calculate the measurements of your yarn, how to store large amounts of plies for bigger projects, and how to swatch your ...

Spin to Knit a Sweater | School of SweetGeorgia

In short:spin is similar to knitr:knit in that it takes as input a file with R code + formatting + text and produces a nice readable report, such as an HTML or markdown document. The difference lies in the input: spin operates on R scripts (.R), while knit requires a literate programming file (.Rmd, .Rnw, etc.). This might not sound like a big deal, but it has some important advantages that I'll describe soon.
