Tip 2: Build your support network. To better support and care for someone with schizophrenia, you need to find help, encouragement, and understanding from others. The more support you have, the better it will be for both you and your loved one. Recognize your own limits. Be realistic about the level of support and care you can provide.

Helping Someone with Schizophrenia - HelpGuide.org

When dealing with communication disorders, it is very important to promote a holistic approach to treatment. As a preschool and pre-k teacher, I find that the students who improve most rapidly are those whose parents, teachers, and speech-language pathologists are continuously in contact about goals and expectations.
